

SEAL BEACH EYES

Optometry

WE ARE AVAILABLE – Safe and ready to serve all your eyecare needs!

Dear Patient,

We are pleased to announce that the California Department of Public Health has given us permission to resume full scope eye care, including preventative care and postponed exams. If your appointment has been delayed, or you have unused benefits, now is the time to schedule your appointment.

Contact us at (562) 431-2031 to schedule your appointment today.

We are taking exceptional precautions to keep you safe while you are in the office. Here are a few of the many health and safety protocols to ensure your ultimate safety:

- All visits are by appointment to ensure social distancing. This includes picking up of glasses/contact lenses, adjustments on glasses, and ordering new products.
- Patients are asked to arrive to their appointment alone and notify us from your vehicle once you arrive OR knock on the door (a parent/guardian may accompany a minor and a family member/caretaker may assist a senior). Call the office at: (562) 431-2031 and someone will greet you at the door.
- Prior to your entry a team member will take your temperature, provide you with hand sanitizer and ask you a series of questions regarding your health and possible COVID-19 exposure. Our team members are all subject to these same screening protocols.

- Patients are asked to wear a mask; we will be doing the same
- Our team sterilizes all equipment and surfaces after every patient and disinfects all frames prior to placing them back on display
- Trying on eyeglass frames will be safe as well. You will have your own tray to keep all frames that you have tried on. ALL frames are cleaned and sterilized between uses.

Don't forget to take advantage of our Complete Pair Packages starting at \$99. New selections are now available! These packages are the perfect option for new eyewear, back-up glasses, or second pairs. Ask us about computer designed glasses with the latest blue blocker technology engineered to protect your eyes from all the Zoom and Facetime sessions!

As a reminder, we are still offering telemedicine consultations, curbside pick-ups, and contact lens refills from our online store accessible through our website www.sealbeacheyes.com

Thank you so much for your continued patronage and support of our business. We appreciate your patience throughout this process and for trusting us with all your eyecare needs.

Dr Randy Hill, Dr Scott Nelsen, and our dedicated team at Seal Beach Eyes
